TITLE: 4 Counties Operational Support Department

EXECUTIVE SUMMARY:

The principal focus of work will be the identification and realisation of operational resilience benefits, with realistic and proportionate cost savings being both identified and delivered, both in the integrated component and collaborative component. This will be against a baseline of current costs that will meet PCC scrutiny, rather than the historic original baseline. The project will initially examine the investment and resources invested by Leics/Notts/Northants/Notts forces OSDs against identified risk, threat and demand (STRA) across the three forces for specialist uniform operational services and seek to establish 4 counties Operational Support Department providing more effective ways of delivering adequate specialisations through formal collaboration. Derbyshire will retain a determination to revisit the aspiration of an integrated unit in the medium term.
