TITLE: In year budget changes 2022/23

EXECUTIVE SUMMARY:

The PCC approved the 2022/23 budget in February 2022. This decision record formally approves the changes that are needed during the financial year. The decision record covers two elements: 1)To comply with Financial Regulations virements between reports over the value of £100k require approval from the OPCC.

2) Income has been received that was not included at the time the budget was approved, this decision allows the income and corresponding expenditure to be added to the approved budget.

The attached document lists the changes which fall into these categories.

INFORMATION IN SUPPORT OF DECISION: (e.g. report or business case)

Details attached

FINANCIAL INFORMATION

Financial Regulations state:

Responsibilities of the Statutory Officers

50. Each budget monitoring report reported to the PCC shall contain details where revised budgets or forecast income and expenditure varies to a significant degree from the original approved budget. However, any significant expected changes to the budget identified between reports should be reported to the PCC CFO immediately. Each budget monitoring report should include any virement requests for approval by the relevant CFO or PCC as necessary

Additions to the budget are necessary to give budget holders the authority to spend the funds, nobody has the authority to spend funds without a budget.

Approving these changes will ensure the financial reporting system is up to date and therefore produces relevant budget monitoring information.
